

NEBRASKA DEPARTMENT OF TRANSPORTATION
NOTICE OF HIGHWAY IMPROVEMENT PROJECT

Platte River Bridges East of Mahoney

NH-80-9(84); C.N. 13279

Identified as *Platte River Bridges East of Mahoney*, the proposed project would repair four sets of bridges along Interstate 80 (I-80) in Cass County and Sarpy County.

The proposed project would begin on I-80 at mile marker (MM) 426.97 in Cass County and end at MM 428.31 in Sarpy County. Bridge structures included in this project are:

- BNRR Bridges at MM 426.97 in Cass County (Structure Number S080 42697L and S080 42697R)
- Platte River Bridges at MM 427.29 in Sarpy County and Cass County (Structure Number S080 42729L and S080 42729R)
- Sarpy Ditch Bridges at MM 427.70 in Sarpy County (Structure Number S080 42770L and S080 42770R)
- Little Creek Bridges at MM 428.31 in Sarpy County (Structure Number S080 42831L and S080 42831R)

The purpose of this project is to preserve the I-80 transportation asset, improve the reliability of the transportation system, and perpetuate the mobility of the traveling public. The need for the proposed project is based on information from the NDOT Bridge Inventory Rating System, Bridge Division, District One, and District Two. These entities have determined that repairs are necessary in order to extend the life of the four sets of bridge structures.

Proposed improvements on all four sets of bridges would consist of a three-inch asphalt overlay on the bridge decks. Additional improvements would include the repair of bridge decks, rails, and guardrails.

This project would not require the acquisition of additional property rights. Access to adjacent

properties would be maintained during construction, but may be limited at times due to phasing requirements.

Wetland impacts are not anticipated. The Eugene T. Mahoney State Park is within the vicinity of the proposed project; no impacts are anticipated.

Construction is tentatively scheduled to begin spring of 2019 and be completed prior to Labor Day 2019.

The proposed project would be constructed under traffic with lane closures controlled with approved temporary traffic control devices and practices. Construction would include night time work.

NDOT has worked to develop this project to minimize inconvenience and hardships. We are dedicated to improving Nebraska's Highway system and with your help we can achieve this goal.

Any questions or comments regarding this project should be submitted to: Sarah Soula, Public Involvement Manager, Nebraska Department of Transportation, P.O. Box 94759, Lincoln, NE 68509-4759; sarah.soula@nebraska.gov; voice telephone 402-479-4871, TDD telephone 402-479-3834, fax 402-479-3989.
